Practice Chapter 10: SET Operators

Overview

In this practice, you write SELECT queries using SET operators

Chapter 10 practice 1 for chapter 10 lesson 1,2

1. Write a query to display a list of jobs for departments 10, 20, 90. Display job ID and department ID using the set operators

Chapter 10 practice 2 for chapter 10 lesson 3

1. Write a query to display a list of locations (location ID, city, address) that have no departments located in them. use the set operators to create the query.

2. Write a query to display a list of employees (employee IDs and job IDs) of those employees who currently have a job that is the same as their previous one (they changed their job but now they are doing the same job they did previously).
